➤ THE PROPERTY

The Brunelleschi Hotel is an enchanting Florentine landmark, originating from the recovered structures of the Byzantine Pagliazza Tower and the medieval church of San Michele in Palchetto, whose historical relevance is showcased and treasured in the private Museum of the Hotel. Our Museo della Pagliazza, which Guests can also visit under the expert guidance of the concierge, displays remarkable archaeological discoveries of Roman ruins and ceramic fragments from the Roman era and Renaissance time.

Besides such abundant historical heritage, the Brunelleschi offers sophisticated interiors and an eclectic modern style, skilfully orchestrated by Ms Piera Benelli who superintended its complete renovation in 2013. Handpicked antiques mingle with contemporary materials such as glass and metal, Murano chandeliers hang from wooden ceilings, voluptuous fabrics and serena stone steps all mix together to bring to life the magnificent vision of the talented architect.
