

# Speke Holidays

UGANDA

RWANDA

*For Spectacular Safaris*

Our journey started out in December 2007 at the Source of the River Nile in Jinja. The name “Speke” (pronounced ‘Speak’) was coined from the British Explorer John Hannington Speke who in 1858 correctly discovered the start of the River Nile thus forever etched Uganda on the global travel map. We continue in those legendary footsteps to discover new traditions, adventures, safari excursions and unique cuisines for our guests.

Today, Speke Holidays is a bespoke DMC based in Kampala, Uganda with an operations office in Kigali, Rwanda, offering authentic, personalized elevated luxury experiences that are led by knowledgeable, passionate safari guides. Our ethos is "out of the box" - innovative ideas and including wonderful surprises in our guest's itineraries along the way make every journey with us extraordinary.

Quality, uniqueness and customer care with a personal touch remain our core values. While our well-designed itineraries give our travellers the best experience of their stay in Uganda or Rwanda, our dedicated team goes extra miles to ensure that we exceed their expectations.

Speke Holidays is very conscious of the need to protect the natural environment and our cultural heritage for generations to come, therefore we encourage our clients to visit the various social-cultural projects we support so as to leave their footprints and take life changing memories with them.
